<p>Summary of program (max. 12 sentences) Aims, activities, (planned) results</p>	<p>Halmstad University incubator acts to facilitate the changeover for students from studying to starting their own companies. Here the students get the possibility to calmly test their business ideas before starting the business "in reality". In the incubator, which is located at the campus, a workplace with furniture, phone, computer and so on is offered to the student. Additionally to this guidance, consulting and mentoring are regularly made available.</p>
<p>Didactical methods</p>	<p>Support is obtained by instructors, teachers from the university, short training courses and seminars</p>
<p>Evaluation results (so far) (in 6 sentences)</p>	<p>Every year approximately 20-25 new business ideas is developed and tested in the incubator. About 12-15 new businesses leave the Innovation Group every year with good future opportunities to become well established companies.</p>
